EDUCATION

BSc. CSIT TU, DWIT   2022-Present
　　　Major: Computer Science and Information Technology
　　　Year of Graduation: 2025

TECHNICAL SKILLS

Programming: Flutter, MySQL, C#, Laravel

Skills: Data Analysis and Visualization, Application Development, Product testing, Requirement gathering, Documentation

CERTIFICATIONS

SQL SERVER DEVELOPER (41 Hours)
Provider: DataCamp inc.
Credential: e3502ec097f2aca958b27c5fce5d7e28d7b1567c

SQL Server Fundamentals
Provider: DataCamp inc.
Credential: 26365efd83e79e2020baf7f80d8bc424b9e7ce82

PROJECTS

1. **Spotify Data Analysis:**
   - Processed raw Spotify data to uncover meaningful insights, such as popular genres, listener behavior, and streaming trends over time.
   - Used charts, graphs, and interactive dashboards to present data visually, making complex patterns more understandable and supporting data-driven decision-making.

2. **Mobile Chat App Applications**
   - Designed and developed a full-featured mobile chat app using Flutter.
   - Participated in testing, bug tracking, and UX refinement to ensure seamless interaction.
   - Documented technical and user-side flows; integrated message read receipts and offline caching.

3. **Job Portal**
   - Built a job portal with multi-role authentication, job postings, candidate profiles, and an application tracking system.
   - Integrated intelligent job matching using machine learning, payment gateway, dynamic job search, and skill verification for a seamless hiring process.
   - Ensured high performance, data security, scalability, and compliance with data protection regulations and accessibility standards.
   - Maintained product documentation and supported requirement gathering for job modules.

4. **Crowd Funding Platform**
   - Developed a crowdfunding platform using Next.js, allowing creators to monetize content through a subscription-based model.
   - Implemented user authentication, content access control, membership tiers, and payment integration with a responsive and intuitive UI for better engagement.

COMMUNITY

President at Deerwalk Hiking Club
Contributions:
   - Planned, documented, and executed 20+ hiking events with detailed route planning and safety guidelines.
   - Hosted and Attended Workshops
   - Demonstrated strong organizational, communication, and problem-solving skills under varying conditions.

Data Fellow at DWIT Data Fellowship:
Contributions:
   - Completed multiple data projects with a focus on storytelling and insight generation.
   - Worked in structured phases involving requirement definition, data validation, and result presentation.
   - Collaborated with mentors and peers to interpret data for social and product-level impact.
